

Temporary Closure – Robinson Street & Gore Street East Intersection

As part of the ongoing Robinson Street Reconstruction Project, the **intersection of Robinson Street and Gore Street East** will be **closed temporarily effective immediately**. This closure is necessary to complete the installation of sanitary and storm sewers, as well as watermains in the area.

Once underground infrastructure work is complete, a base layer of asphalt will be applied before the intersection is reopened to traffic.

Barring any weather-related delays, the intersection is expected to remain closed until **Mid-June 2026**.

During this time:

- Detours will be in place, and a map outlining the detour route is included with this notice.
- Access to nearby properties will be maintained to the greatest extent possible, but delays should be expected.

We recognize the disruption this work may cause and appreciate your patience and cooperation as we modernize critical infrastructure and work to ensure long-term service reliability for the Town of Perth.
