

August 20, 2024

Attention: Residents of Cockburn Street

Subject: Construction Update- Campbell's Trucking

The reconstruction of Cockburn Street is progressing on schedule thanks to the efforts of the staff at Campbell's Trucking. Below is the tentative schedule for the coming weeks:

Week of August 19th

- Complete the installation of Sanitary Sewer and Water Mains
- Continue the installation of Storm Sewer and resident's individual water and sewer services.

Week of August 26th

- Complete the installation of Storm Sewer network.
- Installation of resident's Water and Sewer Services to property lines

Week of September 2nd

- Construction of retaining wall
- Road excavation and granular placement for new roadbed

Residents are responsible for covering the cost of the replacement of their water and sewer services from their property line to their homes. The Town encourages residents to reach out to a plumber/contractor of their choice for a quotation to complete these works. If residents chose to have their private services replaced, a building permit will be required. For building permit information please call 613-267-3311 ext.2222

Staff appreciate your patience and understanding on this construction project to date. Residents can follow the new public engagement platform at engage.perth.ca and continue to contact Noah Greer-Manager of Construction & Development Services for further updates and questions as they arrive at:

- (613) 267 3311 ex 2273
